"FORE!" On The Tennis Courts

The cold winter and years of "wear and tear" did a lot of damage to the barrier netting that protects the tennis players from golf balls being hit from the driving range. The netting that surrounds the courts were torn down last month from wind gusts that reached upwards of 40 mph.

As a pre-caution until the new barrier netting arrives, we ask that you only hit irons while practicing on the driving range. If you see members playing tennis, please do not hit any golf balls into the metal fencing.

A sign will be placed in front of the teeing area to remind you not to hit woods,

especially when members are playing tennis. We apologize for any inconvenience this may cause.
